

A Memorable and Meaningful Name

Now you can choose a domain name from hundreds of new options—and .bible is one of them. With such a valuable keyword connected to your web address, you'll be identified as a member of a trusted community and online source for all things related to the Bible.

.Bible Sets You Apart

The simplicity of the domain name makes it memorable and meaningful. It clearly identifies your website as one where people can engage and share God's Word.

The pinpoint accuracy of your new address will generate trust among all those who have a healthy respect for the Bible.

The .bible domain name helps people come together to engage with Scripture and share Bible-related content, all while supporting American Bible Society and its ministry partners' vision of making the Bible available and alive for all people.

Anyone can register for a .bible domain name, but they must agree to abide by the .bible Code of Conduct and Acceptable Use Policy, designed to protect the .bible top-level domain from inappropriate use and ensuring .bible remains the trusted online source for all things Bible.

.Bible Has a Broad Appeal

Bible societies, Bible publishers, churches, church societies and Christian ministries of every denomination from all around the world can identify their website as Bible related. Potential uses include:

CHURCHES	MINISTRIES	OTHERS
mtzion.bible	audio.bible	kjv.bible
saddleback.bible	deaf.bible	cityserve.bible
newhopepres.bible	study.bible	newyork.bible
willowgrovecma.bible	youth.bible	younglife.bible
firstbaptist.bible	menofgod.bible	canadian.bible

Who Runs .Bible?

American Bible Society, a Christian ministry that has been engaging people with the life-changing message of God's Word for nearly 200 years, operates the .bible registry.

Who's Involved with .Bible?

American Bible Society and its ministry partners are working together to make .bible the trusted online source for all things Bible. Visit nic.bible/featured-sites for a list of our partners and their websites.
